[DHK, BD \(Remote\)](#)

Front-end Developer

A service-based team, works on building websites for clients from marketplaces like Upwork, Fiverr and build products for Themeforest. Also responsible for generating design ideas and convert them into interactive web pages. I served as a full time front-end developer and took part in research, wire-framing and eventually coming up with visually appealing product that serves the purpose of the client's needs.

Freelance Developer

Dec 2020 - Present

Front-end Developer

With the experience in creating user interfaces and brainstorming to eventually bring out ideas. I often do freelance projects for marketplaces like Envato and serve personal clients as well.
