Overview

Meticulous and enthusiastic front-end developer & design enthusiast experienced in front-end development, user interface design, communication and completing projects along with structuring and developing the concepts. Seeking to work in the software industry with different software agencies for further improvement of skills in order to grow rapidly with the increasing responsibilities.

Experiences

PixelsMade

Mar 2021 - Aug 2022

[DHK, BD \(Remote\)](#)

UI Developer

A product-based team, works on building websites for marketplaces like Themeforest and Template Monster. Also responsible for generating design ideas and convert them into interactive web pages. I served as a full time UI designer & developer and took part in research, wireframing and eventually coming up with visually appealing design that serves the purpose of the client's needs.

Idea Informatics

Aug 2020 - Feb 2021

[DHK, BD \(Remote\)](#)

Front-end Developer

A web development company focused on creating websites and web application for various clients around the globe. I served as a full time Front-end Developer and my primary responsibility was to coming up with design and collaborate with team members in the wireframing phase and structuring and developing all the front- end functionalities

Freelance Designer

Mar 2020 - Present

Front-end Developer & UI Designer

I have experience in creating user interfaces and brainstorming to eventually bring out ideas. I can create wireframes and enjoy the prototyping process. I also have a front-end coding knowledge and enjoy working with developers to build the ideas out.
